## New Orleans University

was founded in 1873, and chartered by the Legislature of Louisiana. The school has had a most useful career, and has graduated many prominent and representative men of the colored race. The students have come from all the Southern States, and from Honduras, Panama, Cuba, and the Islands of the British West Indies.

The University has made a unique record as a Christian School. The thoroughness of its work, the number and variety of its departments and courses, the comfort and conveniences of the dormitories, the efficient and sympathetic care of the girls by women who understand them, the wise oversight of both sexes, the religious advantages, these all call for the attention of parents and prospective students.

### BUILDINGS AND GROUNDS.

The University, at 5318 St. Charles Avenue, is in one of the most beautiful sections of the city of New Orleans. The grounds include two city squares.

The main building is of brick, five stories high, one hundred and fifty feet front, with an ell in which are a large dining room and kitchen.

Besides a large parlor, class and society rooms, there are dormitory accommodations for one hundred and fifty students in this building. The building is steam-heated.

A building 36x78 feet, two stories high, is used exclusively for students.

The main building is provided with fire escapes.

The value of the entire property is \$150,000.

The new annex contains a large auditorium, besides recitation rooms and laboratories.

### DEPARTMENTS.

COLLEGE.

TEACHERS' COLLEGE.

COLLEGE PREPARATORY.

NORMAL.

ENGLISH, GRADES THREE TO EIGHT.

DOMESTIC SCIENCE, INCLUDING COOKING, BAKING, ETC.

DOMESTIC ART, INCLUDING SEWING, DRESSMAKING, ETC.

COMMERCIAL, INCLUDING BOOKKEEPING, TYPEWRITING, STENOGRAPHY.

ELOCUTION, INCLUDING ORATORY, ESSAY WRITING, PUBLIC READING.

### ADMISSION.

The University is open to young men and women of all religions. It aims to give all alike a thorough Christian education.

Applicants for admission must furnish satisfactory evidence of good moral character.

No student leaving another school during the year will be admitted without a letter of honorable dismissal.

Students are admitted for not less than one month, and no deduction will be made for absence except in case of protracted illness.

Students coming from other schools must bring a certificate showing what studies they have completed.

### EXAMINATIONS, GRADES, ETC.

Twice during each term, all students are required to pass a written examination.

A record is kept of daily work in each subject, and this, averaged with the examination grade, determines the student's actual standing.

A grade of seventy per cent in any study is necessary for advancement.

These grades are placed upon the permanent record of the University, and abstracts are sent to parents at the close of each term.

Students may not take less than four studies without special permission.

Those who can not complete the regular courses are permitted to elect studies subject to the approval of the faculty.

Students who make sixty per cent or over but fail to pass in any study will receive credit in that study for work done in the Summer Normal School. But they must attend during the entire term of the Summer School.

Students absent one-sixth of the recitations in any subject must repeat the study the following year.

### MID-YEAR PROMOTIONS.

Hereafter promotions will occur twice every school year—at the close of the first Semester and at the close of the second Semester. Corresponding to this arrangement, new classes in various subjects will be formed at the beginning of each Semester.

This will enable students entering at mid-year to begin work regularly with a class. It will also afford opportunity for backward students to make up their work without losing a whole year.

### TEXT-BOOKS.

Students should not purchase text-books until they are assigned classes. Books and stationery of all kinds used in the school can be had at the office of the University. As text-books are sometimes changed, second-hand books should not be purchased before consulting the President or designated officer. Books must be paid for on delivery.

## GOVERNMENT AND REGULATIONS.

It is the purpose of the University so to develop the habit of virtuous self-government that it will become a fixed principle of character. With this end in view, the rules adopted are few, plain and reasonable.

Students who do not apply themselves diligently to their studies, who do not conform willingly to the rules, or whose influence is evil, will be suspended or expelled at the discretion of the President.

There are regular hours. These must be scrupulously observed.

Ladies cannot receive visits from gentlemen other than fathers or brothers except in the presence of a chaperon.

Students are not allowed to receive calls on Sundays, without special permission.

Unless by special arrangement, students whose parents do not reside in the city must board in the Dormitory.

Students will not be allowed to discontinue a study until completed, without the consent of the President.

All boarding students are required to attend the University Sunday School, Preaching Service and Evening Service.

All students are required to attend a daily Chapel Service.

No student boarding in the University is to be absent from the grounds except by permission.

Students must keep their rooms clean, in good order, and ready for inspection at proper times.

Students must not contract debts, either at the University or with outside persons. Parents and guardians are expected to provide for all necessities.

The use of intoxicating liquors, or tobacco in any form, using indecent or profane language, and all other improper acts are strictly forbidden.

Students are not allowed to have in their possession firearms of any kind.

Students must deposit twenty-five cents for room key, which will be refunded at the end of the session when key is returned.

## TEACHERS' COLLEGE.

Attention is called to the new course offered in the Teachers' College. It consists of two years' special training in educational subjects, following four years College Preparatory work. The whole course covers six years. It has received the approval of the State authorities and those who complete it will, upon the presentation of their diplomas, be granted, without examination, a permanent First Grade Teacher's Certificate for Louisiana. Graduates from this department will be admitted to the degree of Bachelor of Pedagogy.

### SUGGESTIONS AND REQUIREMENTS.

Students, on their arrival at the University, are advised to deposit their money in the office for safe keeping. The University will not be responsible for money lost unless it is thus given into its care.

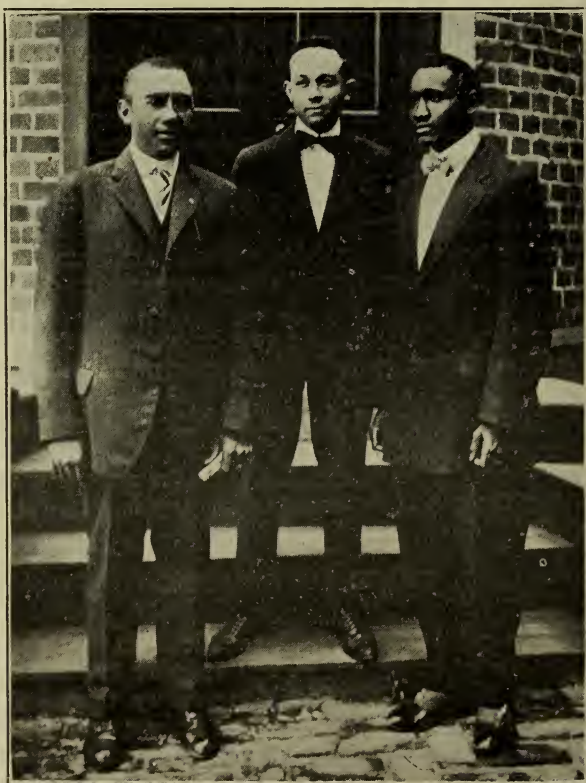

Money for students should be forwarded to the President, by post-office money order or registered letter. A receipt will be given for all money received.

Direct all letters and packages in care of the President, New Orleans University, 5318 St. Charles Avenue, New Orleans, La.

Every student must be provided with rubber shoes and an umbrella, also with plain and comfortable clothing sufficient to last at least one term.

Simplicity in dress is encouraged.

All boarding students should bring with them a bedspread, a pair of blankets, a heavy quilt, a mosquito bar, sheets, pillow cases, towels and napkins.

COLLEGE SENIORS

### CAUTION.

On arriving in the city, keep your checks until you reach the University. Your baggage will be sent for and delivered at the least possible expense. Take the St. Charles Belt electric car, which will leave you at the University.

Do not start from home so as to arrive at the University on Sunday.

Students will find it greatly to their advantage to enter at the beginning of the term.

### MAIL MATTER.

A designated officer claims and exercises the right to open and inspect all mail matter addressed to young ladies, excepting such as comes from their parents.

### LITERARY SOCIETIES AND OTHER AUXILIARIES.

The University maintains Literary Societies, a Temperance Society, a Young Woman's Christian Association, a Young Men's Christian Association, a Missionary Society, a Sunday School, and other auxiliaries.

The Missionary Society, called the William Taylor Band of Africa, keeps constantly before the minds of students the redemption of Africa. A goodly number of the graduates of the University have been teachers and leaders in Africa, and the Society maintains a student in one of the Colleges.

In the societies and various institutions of the University, students have a splendid opportunity for instruction and practice in public speaking and the conduct of public meetings.

The daily Chapel exercises are impressive. The University is noted for the large number of visitors who appear on the Chapel rostrum. Students thus come to be familiar with representative persons in the various walks of life.

Public worship is conducted every Sabbath at 11 o'clock a. m., in the University Auditorium.

### RELIGIONS.

The University is positively Christian. Christian education is its policy. Its law is the law of Christ. The school is generously broad, and no attempt is made to draw students from their religious faith.

### OFFICES OF THE UNIVERSITY.

The offices of the University are located at 5318 St. Charles Avenue, New Orleans, La.

Careful attention is given to all correspondence. Information in

detail touching all departments is promptly and cheerfully sent upon request. Address all communications to the President, whose standing address in 5318 St. Charles Avenue.

No deductions are made for absences except in case of prolonged illness.

Students entering late, expecting to make up back work and thus secure promotion with their classes, must pay Incidental Fees for the whole year.

College students must pay full Incidental Fees at the beginning of each semester.

Checks are subject to the usual exchange, and should be made with this in view.

Every boarding student will be required to do an hour's work daily in addition to the cash payment of twelve dollars. Work in excess of this will be paid for at the regular rates.

A laundry is furnished where the girls may do their own washing. A small fee of twenty-five cents a month is charged for soap, fire and maintenance.

### ATHLETICS.

The University has a fine record in manly sports. The very creditable work of the football team has done much to awaken new interest and enthusiasm in this department of athletics. The baseball team has justly won the title "The Champions of the State of Louisiana." The Athletic Association is under the direction of the President and Faculty, having a member of the Faculty connected therewith. The rules appended, which are rigidly enforced, indicate the clean character and strict government of play.

Officers of the Athletic Association—Faculty Director, J. Oliver Morrison; President, David Jordan; Vice President, Charles Williams; Recording Secretary, Walter S. Chinn, Jr.; Corresponding Secretary, Earl Harrison; Treasurer, Professor Morrison; Manager of Baseball Team, Robert Williams; Coach, David Malarcher; Manager of Football Team, Walter Chinn; Captain of Baseball Team, Rudolph Moses; Captain of Football Team, John Wilson.

## RULES.

1. No student shall be permitted to be on any of the athletic teams or take part in any interscholastic contest, either at home or away from home, until he is an approved student of the University, and is making a standing in studies, work and conduct satisfactory to the Faculty.

2. After having become members of any of the teams, students shall remain on them only as long as their studies, work and conduct are satisfactory to the Faculty.

3. No match game at home or away from home shall be arranged without the consent of the President.

4. Before each match game at home or away from home, a list of the players and substitutes must be submitted to the President through the Faculty member of the Athletic Association.

5. Any member of a team who cuts his class or neglects study in order to play or practice, thereby severs his connection with the team.

6. Teams are not permitted to travel on Sunday, either going or returning.

7. No student shall receive remuneration in any form or from any source for his services on any athletic team.

UNIVERSITY BASEBALL TEAM

**PAY DAYS FOR THE SCHOOL YEAR, 1917-1918.**

The school year of the University is thirty-two weeks long, divided into eight teaching periods of four weeks each. Please observe carefully that the school year does not count by calendar months, that is, from the beginning of one month to the beginning of the next. The session goes by periods of four weeks each. The student pays for a period of four weeks.

The school periods for the school year beginning September 24th, are as follows:

|                                      |         |
|--------------------------------------|---------|
| From September 24 to October 22..... | 4 weeks |
| From October 22 to November 19.....  | 4 weeks |
| From November 19 to December 17..... | 4 weeks |
| From December 17 to January 14.....  | 4 weeks |
| From January 14 to February 11.....  | 4 weeks |
| From February 11 to March 11.....    | 4 weeks |
| From March 11 to April 8.....        | 4 weeks |
| From April 8 to May 7.....           | 4 weeks |

---

32 Teaching weeks.

From the above schedule it can readily be seen that when a student pays for the last period of the session he is not paying for the month of May. His last four weeks' period ends May 6.

**EXTRACT FROM RULES MADE BY FREEDMEN'S AID SOCIETY.**

"Section 2. All tuition and other student bills shall be paid in advance and no student shall be permitted to enter without presenting to the teacher a receipt or pass-card from the treasurer showing that his bills are paid. No president is permitted to give credit for school bills."

**SELF-HELP AND STUDENT AID.**

A desire to help one's self is commendable. However, the chief end of one's school course is not to secure a living, but an education. This should be emphasized. No student, as a rule, can do work enough to support himself and at the same time find opportunity for study. To attempt to do so frequently defeats the purpose of his coming to the school. It is better to wait and earn money sufficient to pay at least the greater part of the expense. We can furnish a limited amount of work for worthy students but do not guarantee work to any. The city of New Orleans offers many opportunities for young men desiring work and we are glad, as far as possible, to assist them in securing positions. Deserving students, members of the Methodist Episcopal Church, in the advanced classes, may obtain

loans, upon recommendation of the Faculty, from the Board of Education.

Independence and self-reliance on the part of students are emphasized as an important part of their education.

**Fourth Year.**

IN CLASS—(1) Milton's Minor Poems; (2) Burke's Conciliation.

**THE MUSIC DEPARTMENT.**

PROFESSOR M. S. STEWART.

To afford superior facilities for obtaining a thorough musical education is our aim.

Our courses are in line with those of the best schools, and the methods employed are the results of both experience and acquaintance with recent ideas in teaching.

**PIANO.**

Pupils of every degree of advancement will be admitted to this department. A course of instruction embracing the standard works has been carefully prepared. The course includes technical exercises designed to give control over the muscles of the fingers, hands and arms. Studies by the best writers, and the best music of ancient and modern composers will be constantly studied.

**VOICE.**

The physical requirement for successful vocal work will be the first consideration. The proper placing of the tones, correct breathing, the quality of the tone and the expression are all matters of constant attention.

**VIOLIN.**

In the elementary work, the establishment of the principles of position and exact intonation form the greater part of the work. In the choice of violin literature the individuality of the student comes first into consideration, so that the selection of studies must be made according to the adaptation of the pupil.

**MUSIC HISTORY AND HARMONY.**

Successful music study depends largely upon the understanding of the various elements constituting the work. The study of Music History and Harmony tends to bring about this understanding. Both of these subjects are required for graduation.

**THE UNIVERSITY ORCHESTRA.**

The University Orchestra offers those who are sufficiently advanced, an excellent opportunity for practice in ensemble playing. Students' recitals, in connection with the orchestra, will be given throughout the year. All students are expected to appear in these recitals when requested to do so.

**ORCHESTRA.**

M. S. STEWART, Director.

**Violins.**

**THE UNIVERSITY ORCHESTRA**

**CHORAL DEPARTMENT.**

**J. OLIVER MORRISON, Director.**

Aside from the work in voice culture offered by the department of music, the school maintains several musical organizations which give the students an unusual opportunity for training in singing and reading music.

**THE UNIVERSITY CHORAL CLUB.**

The Choral Club is open to all students who can sing or who have interest enough in music to apply themselves that they might learn. The Club, each year, studies some standard oratorio or cantata for public presentation, and in this way teaches the student to appreciate and interpret the best in music. The rendition, last year, of the dramatic cantata "Joseph," with a cast of soloists and chorus composed of members of the Choral Club, has been conceded an artistic triumph.

**THE UNIVERSITY CHOIR.**

A large vested choir furnishes music for the regular college church service. The rendition of choice anthems and special offertory selections serves to familiarize the student with the highest grade of relig-

**UNIVERSITY QUARTET**

ious music. At intervals throughout the year, special services of song are given. These public programs give training not only in choral singing, but offer a fine opportunity for developing soloists.

### THE UNIVERSITY GLEE CLUB AND QUARTET.

J. OLIVER MORRISON, Director.

The male Glee Club and Quartet are among the most popular musical organizations, not only of the school but of New Orleans. These singers are in constant demand for musical programs of merit and thus are able to render valuable service to the University and to the community. A repertoire of sacred and secular songs of the standard of similar college organizations is kept ready for presentation.

#### GLEE CLUB.

First Tenor—J. Oliver Morrison, Rudolph Moses.

Second Tenor—J. Phyromn Taylor, Eugene Thrash.

PECK INDUSTRIAL HOME

## Peck School of Domestic Science and Art

Under Auspices of the Woman's Home Missionary Society of the  
Methodist Episcopal Church.

5323 Pitt Street.

---

EMMA WILSON FISHER, Superintendent.

N. ALICE WYSONG, Domestic Art.

FLORENCE MEREDITH, Domestic Science.

ETHEL M. EVANS, Matron.

---

(1) One of the most beautiful and interesting buildings on the campus is Peck School of Domestic Science and Art.

(2) Domestic science, or household science, is very important, for it strikes at the root of things. "The home is the center of the universe, and woman is the center of the home."

(3) The object of domestic science is to fit young women to be good housekeepers, wives and mothers, and to teach them how to keep house so as to make it a place of health, comfort and happiness.

(4) The drudgery connected with household work vanishes when a sufficient amount of knowledge is gained so that it becomes a science.

(5) The Domestic Science Department offers a good, practical course in food and cooking, sanitation and general housekeeping.

### DOMESTIC ART.

The instruction in this department includes Plain Sewing, Fancy Work, and Dressmaking. Practice work is given in all kinds of hand sewing, cutting, fitting and the use of the sewing machine.

The plain sewing course includes all work from Fourth Grade through Third Year Normal, and leads to a certificate.

The dressmaking course fits for the work of a regular dress-maker, and is a special course. It leads to a diploma. A fee of \$1 per month will be charged in this course.

A large variety of clothing is undesirable. Each girl should bring a plainly marked umbrella and rubbers. She should have two plain wash dresses and a supply of work aprons for home wear. A white dress is desirable for special occasions. The uniform, consisting of a plain navy blue serge skirt and a white waist or the regulation "Middy" blouse with navy blue collar and cuffs answers for all ordinary occasions. The college cap takes the place of a hat.

**Flint-Goodridge Hospital**  
**Nurse Training School**  
**SESSION 1917-1918**

### LOCATION.

The Flint-Goodrich Hospital stands at the corner of Canal and South Robertson Streets, the site of the old Flint Medical College, in the City of New Orleans. It fronts on the principal business street of the Metropolis of the South. Two street car lines pass directly in front of its door, thus putting it in direct communication with all the railway stations and ferry lines entering the City. It is within easy walking distance of the very heart of the business section, directly across the street from the Tulane Medical College, and only two blocks from the Charity Hospital. It has a wide street on two sides, a public alley in the rear and a spacious court on the remaining side. This makes possible an outside opening to every room, thus insuring an abundance of fresh air and sunshine. It is one of the most desirable hospitals anywhere to be found, not only for the sick and injured who may need its ministrations but also for physicians and surgeons in attendance.

### TRAINING SCHOOL.

The nurse training is one of the most important features of the work. The Nurse Training School has been completely reorganized and made to conform in all particulars with the requirements of the State Board of Nurse Examiners. The course of study covers a period of three years practical work in the hospital during which time (nine months out of each year) the theoretical training is given by the several members of the faculty.

The school year is divided into three terms of three months each. Monthly reviews and written tests are given in each subject. The final examination for each term is prepared by the Superintendent. The theoretical work will be graded from these monthly tests and term examinations. An average of 75% is required to pass any term's work. A minimum of 70% will be accepted in any one subject, but if graded below this the student will be conditioned and can not be promoted if she has more than two such conditions.

### QUALIFICATIONS FOR ENTERING.

Applicants for this course must be at least eighteen years of age, must furnish satisfactory evidence as to character and ability, and must furnish credentials required by the Louisiana State Board of Nurse Examiners, which now is a certificate, properly signed showing the completion of at least the first year of a standard High School Course (ninth grade). This may be changed at any time without notice, and will be changed whenever the State Board raise their requirements.

The exactions made upon a nurse are such as to require much strength of body and good health, together with a patient, forbearing

and gentle disposition and an unquestionable obedience. Any one not possessed of these qualifications or who is looking for an easy time should not apply.

All applicants are admitted at first on a three months' probation. Those passing this period and having done satisfactory practical work will be admitted as student nurses.

Those who are eligible and desire to take the course should send their applications early to the office where they will be kept on file. Accepted applicants will be notified when to come.

The right is reserved by the Superintendent to terminate the course of any nurse at any time for good and sufficient cause.

### TIME FOR ENTERING.

Nurses may enter the Training School during the months of January and June; none will be admitted at other times, unless it be to fill unexpected vacancies. We prefer that all beginners come in June. Application blanks will be furnished upon request.

### FEEES AND OTHER EXPENSES.

Each nurse will be required to deposit \$10.00 with the Superintendent on entering the Training School, as a guarantee of her intention to abide by the rules of the hospital and school and remain

MAIN BUILDING

to complete the three years' course, same will be refunded if this is done, but forfeited if for any reason she should leave before finishing the course.

On passing her probation and at the end of her second year each nurse will be required to make a \$5.00 deposit on her uniform (4 dresses, 6 aprons, caps, collars and cuffs) which will be refunded with the guarantee deposit on finishing the course.

Each nurse must purchase her own books for the course; these may be gotten from the office at cost; this amounts to, on an average, about \$8.00 per year. She will also be required to have her own watch, thermometer, scissors, and hypodermic outfit, and will be required to have rubber heels on shoes to be worn while on duty.

#### GENERAL REMARKS.

Four qualifications are necessary for the young woman who anticipates entering upon a course of Nurse Training:

1 She must have an intellect capable of thoroughly understanding the subjects presented in her course.

2. She must have a strong physique and robust health, for the work is arduous and the hours long.

3. She must have a cheerful, happy disposition, for good spirits are a tonic to the patient, and obedience is essential for the welfare of all.

4. She must be absolutely trustworthy and her character beyond reproach.

Another desirable requisite is a thorough understanding of domestic duties. Correctly to sweep a floor, make a bed, or prepare a good meal is as necessary as to be able to take temperature, use a hypodermic syringe, or dress a wound. All are essential, and so our course embraces the most ordinary household duties as well as the highest points of nursing technique.

## NEW ORLEANS UNIVERSITY.

was founded in 1873, and chartered by the Legislature of Louisiana. The school has had a most useful career, and has graduated many prominent and representative men of the colored race. The students have come from all the Southern States, and from Honduras, Panama, Cuba and the Islands of the British West Indies.

The University has made a unique record as a Christian School. The thoroughness of its work, the number and variety of its departments and courses, the comfort and conveniences of the dormitories, the efficient and sympathetic care of the girls by women who understand them, the wise oversight of both sexes, the religious advantages, these all call for the attention of parents and prospective students.

### BUILDINGS AND GROUNDS.

The University, at 5318 St. Charles Avenue, is in one of the most beautiful sections of the City of New Orleans. The grounds include two city squares.

The main building is of brick, five stories high, one hundred and fifty feet front, with an ell in which is a large dining room and kitchen.

Besides a large parlor, class and society rooms, there are dormitory accommodations for one hundred and fifty students in this building. The building is steam heated.

A building 36x78 feet, two stories high, is used exclusively for recitation rooms. It will accommodate three hundred and fifty students.

The main building is provided with fire escapes.

The value of the entire property is \$150,000.

The new annex contains a large auditorium, besides recitation rooms and laboratories.

### DEPARTMENTS.

COLLEGE OF LIBERAL ARTS.

TEACHERS' COLLEGE.

COLLEGE PREPARATORY.

NORMAL.

ENGLISH, GRADES FIVE TO EIGHT.

MUSIC.

DOMESTIC SCIENCE, INCLUDING COOKING, BAKING, ETC.

DOMESTIC ART, INCLUDING SEWING, DRESS MAKING, ETC.

COMMERCIAL, INCLUDING BOOKKEEPING, TYPEWRITING, STENOGRAPHY.

ELOCUTION, INCLUDING ORATORY, ESSAY WRITING, PUBLIC READING.

### ADMISSION.

The University is open to young men and women of all religions. It aims to give all alike a thorough Christian education.

Applicants for admission must furnish satisfactory evidence of good moral character.

No student leaving another school during the year will be admitted without a letter of honorable dismissal.

Students are admitted for not less than one month, and no deduction will be made for absence except in case of protracted illness.

Students coming from other schools must bring a certificate showing what studies they have completed.

### **EXAMINATIONS, GRADES, ETC.**

Twice during each term, all students are required to pass a written examination.

A record is kept of daily work in each subject, and this, averaged with the examination grade, determines the student's actual standing.

A grade of seventy per cent in any study is necessary for advancement.

These grades are placed upon the permanent record of the University, and abstracts are sent to parents at the close of each term.

Students may not take less than four studies without special permission.

Those who can not complete the regular courses are permitted to elect studies subject to the approval of the faculty.

### **TEXT BOOKS.**

Students should not purchase text-books until they are assigned classes. Books and stationery of all kinds used in the school can be had at the office of the University. As text-books are sometimes changed, second-hand books should not be purchased before consulting the President or designated officer. Books must be paid for on delivery.

### **GOVERNMENT AND REGULATIONS.**

It is the purpose of the University so to develop the habit of virtuous self-government that it will become a fixed principle of character. With this end in view, the rules adopted are few, plain and reasonable.

Students who do not apply themselves diligently to their studies, who do not conform willingly to the rules, or whose influence is evil, will be suspended or expelled at the discretion of the President.

There are regular hours. These must be scrupulously observed.

Ladies cannot receive visits from gentlemen other than fathers or brothers except in the presence of a chaperon.

Students are not allowed to receive calls on Sundays without special permission.

Unless by special arrangement, students over ten years of age whose parents do not reside in the city must board in the Dormitory.

Students will not be allowed to discontinue a study until completed, without the consent of the President.

All boarding students are required to attend University Sunday School, Preaching Service and Mid-week Evening Service.

All students are required to attend a daily Chapel Service.

No student boarding in the University is to be absent from the grounds except by permission.

Students must keep their rooms clean, in good order, and ready for inspection at proper times.

Students must not contract debts, either at the University or with outside persons. Parents and guardians are expected to provide for all necessities.

The use of intoxicating liquors, or tobacco in any form, using indecent or profane language, and all other improper acts are strictly forbidden.

Students are not allowed to have in their possession firearms of any kind.

Students must deposit twenty-five cents for room key, which will be refunded at the end of the session when key is returned.

### **SUGGESTIONS AND REQUIREMENTS.**

Students, on their arrival at the University, are advised to deposit their money in the office for safe keeping. The University will not be responsible for money lost unless it is thus given into its care.

Money for students should be forwarded to the President, by post-office money order or registered letter. A receipt will be given for all money received.

Direct all letters and packages in care of the President, New Orleans University, 5318 St. Charles Avenue, New Orleans, La.

Every student must be provided with rubber shoes and an umbrella, also with plain and comfortable clothing sufficient to last at least one term.

Simplicity in dress is encouraged.

All boarding students should bring with them a bed-spread, a pair of blankets, a heavy quilt, a mosquito bar, sheets, pillow cases, towels and napkins.

### **CAUTION.**

On arriving in the city, keep your checks until you reach the University. Your baggage will be sent for and delivered at the least possible expense. Take the St. Charles Belt electric car which will leave you at the University.

Do not start from home so as to arrive at the University on Sunday.

Students will find it greatly to their advantage to enter at the beginning of the term.

### **MAIL MATTER.**

A designated officer claims and exercises the right to open and inspect all mail matter addressed to young ladies, excepting such as comes from their parents.

## LITERARY SOCIETIES AND OTHER AUXILIARIES.

The University maintains Literary Societies, a Temperance Society, a Young Woman's Christian Association, a Young Men's Christian Association, a Missionary Society, a Sunday School, and other auxiliaries.

The Missionary Society, called the "William Taylor Band Friends of Africa," keeps constantly before the minds of the students the redemption of Africa. A goodly number of the graduates of the University have been teachers and leaders in Africa, and the Society maintains a student in one of the Colleges.

In the Societies and various institutions of the University, students have a splendid opportunity for instruction and practice in public speaking and the conduct of public meetings.

The daily Chapel exercises are impressive. The University is noted for the large number of visitors who appear on the Chapel rostrum. Students thus come to be familiar with representative persons in the various walks of life.

Public worship is conducted every Sabbath in the University Auditorium.

## RELIGION.

The University is positively Christian. Christian education is its policy. Its law is the law of Christ. The school is generously broad, and no attempt is made to draw students from their religious faith.

## ATHLETICS.

The University has a fine record in manly sports. The Athletic Association is under the direction of the President and Faculty, having a member of the Faculty connected therewith. The rules appended, which are rigidly enforced, indicate the clean character and strict government of play.

## RULES.

1. No student shall be permitted to be on any of the athletic teams or take part in any interscholastic contest, either at home or away from home, until he is an approved student of the University, and is making a standing in studies, work and conduct satisfactory to the Faculty.

2. After having become members of any of the teams, students shall remain on them only as long as their studies, work and conduct are satisfactory to the Faculty.

3. No match game at home or away from home shall be arranged without the consent of the President.

4. Before each match game at home or trip from home, a list of the players and substitutes must be submitted to the President through the Faculty member of the Athletic Association.

5. Any member of a team who cuts his class or neglects study in order to play or practice, thereby severs his connection with the team.

6. Teams are not permitted to travel on Sunday, either going or returning.

7. No student shall receive remuneration in any form or from any source for his services on any athletic team.

### OFFICES OF THE UNIVERSITY.

The offices of the University are located at 5318 St. Charles Avenue, New Orleans, La.

Careful attention is given all correspondence. Information in detail touching all departments is promptly and cheerfully sent upon request. Address all communications to the President, whose standing address is 5318 St. Charles Avenue.

The children of traveling ministers are given half rates in Incidental Fees.

The first payment is due on registering. A payment is due on the first of every school month thereafter.

No deductions are made for absences except in case of prolonged illness.

Students entering late, expecting to make up back work and thus secure promotion with their classes, must pay Incidental Fees for the whole year.

College students must pay full Incidental Fees at the beginning of each semester.

Checks are subject to the usual exchange, and should be made with this in view.

Every boarding student will be required to do an hour's work daily in addition to the cash payment of fifteen dollars. Work in excess of this will be paid for at the regular rates.

A laundry is furnished where the girls may do their own washing. A small fee of twenty-five cents a month is charged for fire and maintenance.

### **SCHOOL YEAR.**

The school year of the University is thirty-six weeks long, divided into nine teaching periods of four weeks each. Please observe carefully that the school year does not count by calendar months, that is, from the beginning of one month to the beginning of the next, rather by periods of four weeks each. The student pays for a period of four weeks.

### **PAY DAYS.**

| 1920.         | 1921.       |
|---------------|-------------|
| September 20. | January 10. |
| October 18.   | February 7. |
| November 15.  | March 7.    |
| December 13.  | April 4.    |
|               | May 2.      |

From the above schedule it can readily be seen that when a student pays for the last period of the session he is not paying for the month of June.

### **EXTRACT FROM RULES MADE BY FREEDMEN'S AID SOCIETY:**

"Section 2. All tuition and other student bills shall be paid in advance and no student shall be permitted to enter classes without presenting to the teacher a receipt or pass-card from the treasurer showing that his bills are paid. No president is permitted to give credit for school bills."

### **SELF-HELP AND STUDENT AID.**

A desire to help one's self is commendable. However, the chief end of one's school course is not to secure a living but an education. This should be emphasized. No student, as a rule, can do work enough to support himself and at the same time find opportunity for study. To attempt to do so frequently defeats the purpose of his coming to the school. It is better to wait and earn money sufficient to pay at least the greater part of the expense. We can furnish only a limited amount of work for worthy students and do not guarantee work to any. The city of New Orleans offers many opportunities for young men desiring

work and we are glad, as far as possible, to assist them in securing positions.

Deserving students, members of the Methodist Episcopal Church, in the advanced classes, may obtain loans, upon recommendation of the Faculty, from the Board of Education.

Independence and self-reliance on the part of students are emphasized as an important part of their education.

### **PRIZES.**

The Frederic H. Knight prize for excellence in English will be awarded to the student of the College Preparatory or Normal Department making the best record in this study.

# DESCRIPTION OF COURSES.

## THE MUSIC DEPARTMENT.

PROFESSOR GEO. J. CARRERE.

To afford superior facilities for obtaining a thorough musical education is our aim.

Our courses are in line with those of the best schools, and the methods employed are the results of both experience and acquaintance with recent ideas in teaching.

### PIANO.

Pupils of every degree of advancement will be admitted to this department. A course of instruction embracing the standard works has been carefully prepared. The course includes technical exercises designed to give control over the muscles of the fingers, hands and arms. Studies by the best writers, and the best music of ancient and modern composers will be constantly studied.

### VOICE.

The physical requirement for successful vocal work will be of first consideration. The proper placing of the tones, correct breathing, the quality of the tone and the expression are all matters of constant attention.

### VIOLIN.

In the elementary work, the establishment of the principles of position and exact intonation form the greater part of the work. In the choice of violin literature the individuality of the student comes first into consideration, so that the selection of studies must be made according to the adaptation of the pupil.

### MUSIC HISTORY AND HARMONY.

Successful music study depends largely upon the understanding of the various elements constituting a work. The study of Music History and Harmony both tend to bring about this understanding. Both of these subjects are required for graduation.

### THE UNIVERSITY ORCHESTRA.

The University Orchestra offers those who are sufficiently advanced, an excellent opportunity for practice in ensemble playing. Student recitals, in connection with the orchestra, will be given throughout the year. All students are expected to appear in these recitals when requested to do so.

# TEACHERS' COLLEGE.

The work in this school is designed to give scientific training in the teaching profession. No student is admitted to any of the courses offered here, who has not completed satisfactorily a four years' course in a high school of creditable standing. In connection with the work an elementary school has been established where experiments in education and practice teaching are carried out. The work of this department leads to the degree of Bachelor of Education. Candidates for this degree must have completed two full years of work in education, one of which must have been pursued in New Orleans Teachers' College.

## SCHEDULE OF COURSES.

### NORMAL ARITHMETIC.

This course consists of a careful study of all the processes and applications of ordinary arithmetical problems. Special emphasis is placed upon correct forms of solutions and statements with the view of inculcating habits of correct and accurate procedure in the arithmetical thought of the prospective teacher.

Three periods a week throughout the year. Required of all juniors.

### BIOLOGY 1.

This course consists of the study of plants and animals life from the simplest form—one cell—to the highest form—many cells. Each grand division of the plant and animal kingdom will be studied in detail and the characteristics which mark these divisions, one from the other, will be stressed. The characteristics of each division will be so co-ordinated with the others that the student will get a general conception of the whole plant or animal kingdom. The steps by which the groups gradually approach the highest types will be studied in detail. Also the habitats of the different plants and animals will be investigated.

The laboratory work consists of the microscopical study of material which illustrates the foregoing points. Short field trips will be taken in order to familiarize the student with the natural habitats of the various plants and animals.

Four periods a week throughout the year. Required of all juniors.

### COMMUNITY CIVICS.

A course in the study of community life designed to keep the student in close touch with the environment in which he works. Plans of city and community co-operation, city beautification, health, sanitation, the proper use of the ballot, and the relation of school to com-

munity are studied with the aim of making citizenship a vital factor in the life of the individual.

Three periods a week the second semester. Required of all seniors.

## EDUCATION 2.

A brief study in the lives and principles of great educational reformers from Comenius to the present. The influence of these outstanding reformers on modern education, and the direction of evolution of the educational processes as a result of their work are studied in detail.

Three periods a week throughout the year. Required of all seniors.

## GENERAL METHOD AND OBSERVATION.

This course is a careful study of the processes through which fundamental principles of education find their expression in actual teaching. Opportunity is given for observation in a modern school where the best methods are employed.

Five periods a week throughout the year. Required of all juniors.

## ADVANCED GEOGRAPHY.

An advanced study and detailed investigation of industrial and commercial relations treated from an international point of view.

Three periods a week the first semester. Required of all seniors.

## NORMAL GRAMMAR.

This course aims to give a clear understanding of the correct forms and relations of ordinary English usage, through a thorough study of technical grammar. Special lessons are given in spelling, letter writing and in literary selections.

Three periods a week throughout the year. Required of all juniors.

## PRACTICE TEACHING.

The student is given an opportunity to study at first hand classroom problems and children, themselves, in the Practice School of the College. This is followed by actual teaching, under careful and expert supervision, which is intended to fix and vitalize in concrete terms the theoretical instruction of the professional branches. The degree will be refused any student who has not done the required amount of work in this course. Recognition is taken of actual teaching previous to enrollment here.

Five periods a week with observation, throughout the year. Required of all seniors.

### **PRIMARY METHODS.**

The demand for specially trained primary teachers makes this course one of the most practical and popular of the College. Special attention is given to the teaching of every subject in the Primary grades, with suggestions as to good devices for presentation of lessons and drills. Attention is also given to the writing of lesson plans, so that at the completion of this course the student is ready to begin her teaching in the Training School.

Three periods a week throughout the year. Required of all seniors.

### **PSYCHOLOGY 2.**

This course consists of a study of mental development during childhood and adolescence, and of the mental processes functioning in the child's life. The aim of the course is to train teachers in the study of children from a psychological point of view.

Three periods a week for the first semester. Required of all juniors.

### **PSYCHOLOGY 3.**

This course builds upon course two, and applies the principles and laws of psychology to the various stages of child development. In addition the functioning of the mental processes in the child's life in their direct relation to teaching is given careful study.

Three periods a week for the second semester. Prerequisite, course 2. Required of all juniors.

### **PUBLIC SCHOOL ADMINISTRATION AND SUPERVISION.**

This course presents the principles underlying the organization and administration of education, studies the problems of order, discipline, supervised study, and deals with the historic evolution of the principal administrative offices with their probable future development.

Three periods a week throughout the year. Required of all seniors.

### **PUBLIC SCHOOL DRAWING.**

One of the chief aims of this course is to develop in the student an appreciation of art, rather than to try to make artists. With this in view emphasis is placed upon the study of great artists and their work. Practice is also given in free-hand and mechanical drawing, which consists of simple forms and common objects of nature. Grouping and perspective are studied for the purpose of affording training in observation and in facility of motor expression.

Two periods a week for the first semester. Required of all juniors.

### **PUBLIC SCHOOL MUSIC.**

This course consists of a general study of the rudiments of music for the purpose of preparing the prospective teacher to give practical instruction in music in the schools, either with or without the direction of a supervisor. Investigation is made of song material suited to the various years of school life. Special emphasis is placed upon rote songs, folk songs and singing games.

Two periods a week for the second semester. Required of all juniors.

### **EDUCATIONAL SOCIOLOGY.**

Special attention is given in this course to the various groups of society which have a direct connection with the education of the child. Special study is made of the home, its origin, and evolution, and its importance in the child's development. The social aspects of the school, and the characteristic value of the school to citizenship are treated at length.

Three periods a week throughout the year. Required of all seniors.

### **ADVANCED STUDY.**

Students desiring to remain longer than the two years required for the degree in education will be given opportunity to select any courses from the College of Liberal Arts which are open without specific requirements, or which their previous preparation entitles them to enter. Thus adequate training for high school teachers may be received by those who choose to take it.

# Gilbert Academy

# ENGLISH

MARY L. NEFF AND ASSISTANTS.

## ENGLISH 1.

This is a course in rhetoric and composition designed to teach correct methods of reading, writing, and expression of good English. Some time is spent in review of the common rules of grammar and sentence structure. Spelling and proper sentence formation are emphasized. This work is illustrated and supplemented by collateral reading from the best classics.

Five periods a week throughout the year. Required of all first year students.

Classics to be read:

- (a) In Class—1. Sketch Book. 2. Pilgrim's Progress. 3. Lady of the Lake.
- (b) Out of Class—1. Sharp Eyes. 2. Robinson Crusoe. 3. Biography of Caesar.

## ENGLISH 2.

This course aims to unfold further the principles of writing and expression of proper English. Unity, order and development of sentences and paragraphs as well as description, narration, exposition and argumentation are studied in detail. The proper use of these is brought out in themes and collateral reading.

Course one or its equivalent is required for admission to this course.

Five periods a week throughout the year. Required of all second year students.

Classics to be read:

- (a) In Class—1. Ancient Mariner. 2. Ivanhoe. 3. Merchant of Venice.
- (b) Out of Class—1. Silas Marner. 2. Pathfinder. 3. Treasure Island.

## ENGLISH 3.

A history of English Literature from its beginning through the nineteenth century. The aim of the course is to acquaint the student with those writers responsible for the growth of the drama, the essay and the songs of the English people. Due emphasis is laid on the movements in history which influenced the evolution of the English language. This is not meant to be a detailed study of any age or of any particular form of writing. Yet it is comprehensive and gives the student an appreciation of the best in literature.

Five periods a week for the first semester. Required of all third year students. Prerequisites are courses one and two.

Classics to be read:

- (a) 1. Burke's speech on the Conciliation of the American Colonies. 2. Julius Caesar.
- (b) Out of Class—1. Tennyson's Locksley Hall. 2. Goldsmith's Vicar of Wakefield.

#### ENGLISH 4.

This is a course in American Literature. It includes the history of American writers and in so far as is possible their works are studied in detail. Sufficient illustrations are used to leave with the students an appreciation of the literature of their own country. The class work is supplemented by essays and collateral reading.

Classics to be read:

- (a) In Class—1. The Vision of Sir Launfal. 2. Holmes' Chambered Nautilus. 3. Lincoln's Gettysburg Address.
- (b) Out of Class—1. House of Seven Gables. 2. Webster's First Bunker Hill Oration.

#### ENGLISH 5.

This course is a study of writers who have stood the test of time. It aims to give the student the power of appreciation and analysis of good literature. The works of the best writers are taken up with the definite purpose of analyzing them to determine what has been their chief contribution and value. The works studied vary from year to year yet never leave that field of literature universally recognized as the best.

Required of all fourth year Preparatory students. Courses one, two and three or their equivalents are required for admission to this course.

Two periods a week throughout the year.

Classics for 1920-21:

- (a) In Class—1. Selections from the works of Milton, Shakespeare and Carlyle.
- (b) Out of Class—1. A Tale of Two Cities, Dickens. 2. Milton's Minor Poems. 3. Sir Roger de Coverly, Addison.

#### HISTORY 1.

MISS REEVES AND MISS AUSTIN.

A brief course in the history of the Ancient nations is necessary for the understanding of present day nations, and the trend of modern times. The aim of this course is to familiarize the student with the history and customs of Egypt, Greece, and Rome, the reasons for their greatness, and the causes of their downfall. The use of maps and black-board aid in explaining the formation of nations, and picturing their position in the various stages of their development. Five periods per week throughout the year. Required of all second year students.

**HISTORY 2.**

A brief course in modern European history leading up to and including the causes of the recent world war. Emphasis is placed on the political situations which have caused the downfall of autocratic governments.

Three periods a week throughout the year. Required of third year Preparatory students.

**HISTORY 3.**

This course in United States History covers the settlement, growth and development of our country, with emphasis on the unfolding of the democratic form of government. Careful study is given those periods of the nation's life during which this idea was the center.

Three periods a week for the first semester. Required of all fourth year students.

**HISTORY 4—(CIVICS)**

A course in community civics, emphasizing the relation of the individual to the various units of government, to the groups to which he belongs, and how these units and groups function. The object of the course is to make good citizens. Consequently much time is spent in studying present systems of government, community needs, and methods of civic improvement.

Three periods a week, the second semester. Required of all fourth year students.

**LATIN.**

ANNIE J. PARKER.

**LATIN 1.**

Beginning Latin. Required of all students expecting to take French. Elementary Latin, verbs, conjugations, syntax, root derivation, composition and translation.

Text——

**LATIN 2.**

Caesar. Prerequisite Latin 1. Required of all students expecting to take French. Translation of Caesar's Gallic Wars, grammatical construction, root derivations and advanced composition.

Text——

**LATIN 3.**

A study of Cicero's Orations, supplemented with Latin prose. Five periods a week throughout the year. Required of all third year Preparatory students. Prerequisite Latin 1 and 2.

**LATIN 4.**

A review of grammar and composition, reading of the first four books of Vergil's Aeneid. Five periods a week throughout the year. Required of all fourth year Preparatory students. Courses 1, 2 and 3 must have been satisfactorily completed before taking this course.

**MATHEMATICS.****PROFESSOR DENNEY AND ASSISTANTS.**

In this department both the theory and the practice of mathematics are emphasized. Rapid calculation, accuracy, and clear reasoning, as well as the deeper theories underlying all mathematics are taught with the idea of fitting the student to function in a commercial age and developing an understanding of relations, proportions, distances and values. Opportunity is given the student to do original work as early as his mental development warrants it. In all divisions of this department the aim is to lead the self-aroused thought of the student into new and fresh fields of the subject so that his mental life shall be a gradual unfolding. Interesting problems, familiar figures and practical texts are employed.

**ALGEBRA. 1.**

This course is elementary and deals with the simple processes of addition, subtraction, multiplication and division, both of whole algebraic terms and of fractions. It treats of equations of one, two, and three unknown quantities, factoring, L. C. M., and highest common factor. Five periods through the year. Required of all first year students.

**ALGEBRA. 2.**

This course reviews complex fractions, treats of inequalities, radicals, and quadratics with equations in the same. In order to take this course evidence must be presented by the student that the requirements of course one have been satisfied.

Five periods a week throughout the year. Required of all third year students.

**GEOMETRY. 1.**

Study of the ordinary plane figures such as triangles, parallelograms and circles, construction of these figures and the various propositions arising from them, afford ample problems for solution. Emphasis is placed on original problems after the first half of the year.

Five periods a week throughout the year. Required of all second year students.

At least one year of Algebra should precede this course.

**ARITHMETIC.**

Opportunity is given the Normal students to review ordinary arithmetic in their third and fourth years. The principles of the various sections are explained, the tables of weights, measures, etc., are reviewed, and problems using the various theories and tables solved. Since only Normal students take these courses stress is laid on the teaching of Mathematics to grade pupils. A good working knowledge of arithmetic is assured after these courses have been successfully mastered.

Three periods for the first semester. Required of all third and fourth year Normal students.

**NORMAL TRAINING.**

PROFESSOR TRIGGS AND MISS REEVES.

**EDUCATION.**

Course 2. Modern Educators of Three Centuries.

This course shows the development of educational thought and practice from the simple customs of the ancient primitive people to the complex organization of the present educational systems. Text—Monroe's "A Brief Course in the History of Education."

Five periods a week the second semester. Required of all third year Normal students.

**METHODS AND OBSERVATION.**

A study of the recitation and the general forms of procedure represented in current usage constitutes the first part of this course. Later, each subject of the school curriculum is given special attention as to methods of presentation and drill. Observations in practical school work supplement each special method. A part of the work throughout the course consists in the practice of writing lesson plans.

Five periods a week the first semester. Required of all fourth year Normal students.

**PRACTICE TEACHING.**

Opportunity for practice teaching under expert supervision is furnished in the elementary school department of the Teachers' College and is required of all students completing the Normal course. This work is arranged according to the natural aptitude of the student, previous experience, and ability as a teacher and a student.

**PSYCHOLOGY.**

**COURSE 1. INTRODUCTORY PSYCHOLOGY.**

This is a thorough study of the structure and the function of the

nervous system, and of the fundamental activities of the mind. The text is supplemented by elementary experiments of mental phenomena.

Text—Halleck's "Psychology and Psychic Culture."

Five periods a week for the first semester. Required of all third year Normal students.

## **COURSE 2. EDUCATIONAL PSYCHOLOGY.**

This course consists of the practical application of the principles of Psychology to educational problems, and investigations of the learning process during the different periods of mental development. Mental and educational tests for determining the rank, efficiency and ability of the children in the different school subjects and grades will be made.

Text—Freeman's "How Children Learn."

Three periods a week for the first semester. Required of all juniors in Teachers' College.

## **SCHOOL MANAGEMENT.**

This course deals with such problems as the formation of habits in classroom duties, the organization of the daily program, attendance and records, order and discipline, attention and interest, the testing of results, and promotions.

Text—"Bagley's Classroom Management."

Four periods a week for the second semester. Required of all fourth year Normal students.

## **BIBLE.**

PROFESSOR DENNEY.

### **BIBLE 1.**

This course in Bible is a study of the Gospel of Mark with a parallel study of Matthew and Luke, a brief review of the founding of the early Christian Church, with its organization and development up to the year one hundred, and a short study of selected writings of Saint Paul. The emphasis of the course is upon the text of these Books and their religious significance. The very best commentaries and descriptive essays on these Books are assigned as collateral reading so that the student at the close of the course has at hand not only a knowledge of this part of the Bible but also a wealth of Bible literature which will be of great value to him in his later life as a Christian worker.

Two periods a week throughout the year. Required of all first year preparatory students.

### **BIBLE 2.**

This course for Normal students aims to prepare teachers for

Church classes and for classes in the Sunday School. During the first half of the year it consists of a study of the Old Testament, how the Bible evolved, its chief value as a religious book, and how to study these writings in the light of modern events.

The last half of the year is given over to a psychological study of the child mind in the several stages of its development with the aim of religious instruction. Thus the student knows after completing this course, how to classify children, and what methods to use in their religious instruction. The aim is to develop efficient teachers of religion as well as to give an adequate knowledge and understanding of the Old Testament.

Two hours a week throughout the year. Required of all third year Normal students.

### **BIBLE 3.**

The first half of the year in this course is devoted to a study of early Hebrew history. A careful study of Genesis is thus necessary. Correlated with this are the other early historical works of the Bible. The latter half of the year is given over to a study of the Major Prophets. In this study emphasis is placed on the history of the times in which these Books were written, their literary value, and their religious significance.

Two hours a week throughout the year. Required of all fourth year Preparatory students.

## **DEPARTMENT OF ROMANCE LANGUAGES.**

PROFESSOR CHAS. L. HOLMES.

### **FRENCH 1.**

Beginning French—Thorough foundation in grammar, verbs, idioms, elementary composition and class-room conversation. Required two years of Latin. Texts—Chardanells "Complete French Course"; Snow and Lebon, "Easy French."

### **FRENCH II.**

Review of French verbs, translation of the works of the best French authors, advanced composition and class-room conversation. Required French 1. Texts—"Bourgeoise Gentilhomme," Aldrich and Foster French Reader; "Les Miserables," Hugo; Musset, "Pierre et Camille." Two novels read out of class each year.

### **SPANISH 1.**

Beginning Spanish—Grammar, verbs, elementary translation and

class-room conversation. Texts—Hills and Fords “First Spanish Course” Required two years of Latin.

### SPANISH 2.

Translation of the works of the best modern Spanish writers, composition and class-room conversation. Required Spanish 1. Texts—Alarcon, “Novelas Cortes”; “Don Juan Quixote,” Cervantes.

## DEPARTMENT OF SCIENCE.

### PROFESSOR L. J. STEWART.

Science has become so indispensable to man's being that he does not pass a day without either practicing or witnessing some scientific principle in operation. It is the object of this department to study the more common principles of scientific phenomena and wherever possible to apply them to our everyday life. The more common natural phenomena are explained in terms of the scientific principles that govern them. Two periods of laboratory count as one period of recitation.

### PHYSICS 1.

The first semester is given to the study of principles governing pressure in liquids and in air; molecular motion; forces and motion; molecular forces; work and energy. The second semester is given to magnetism, electricity, sound and light. Text—A First Course in Physics—Milikan & Gale (Revised Edition).

Three periods on text, two periods of laboratory work per week. Required of all fourth year students.

### CHEMISTRY 1.

The first semester is given to the study of some of the common gases, their preparation and properties. Symbols of the elements are learned and the more elementary reactions studied. The second semester is devoted to the study of the metals, their occurrence, properties and detections. Chemical reactions and the laws that govern them are studied more in detail. Text—Chemistry and Laboratory Manual—Morgan & Lyman.

Three periods on text, two periods of laboratory work per week. Required of all second year students.

## PECK SCHOOL OF DOMESTIC SCIENCE AND ART.

Under auspices of the Woman's Home Missionary Society of the  
Methodist Episcopal Church.

5323 Pitt Street.

---

MRS. EMMA W. FISHER, Superintendent.

MISS ELIZABETH LOWEN, Domestic Art.

MISS ETHELWYNE MORTON, Domestic Science.

MRS. McFARLAND, Matron.

---

One of the most beautiful and interesting buildings on the campus is Peck School of Domestic Science and Art.

### DOMESTIC SCIENCE.

Domestic Science, or household science, is very important, for it lies at the root of things. "The home is the center of the universe, and woman is the center of the home."

The object of domestic science is to fit young women to be good housekeepers, wives and mothers, and to teach them how to keep house so as to make it a place of health, comfort and happiness.

The drudgery connected with household work vanishes when a sufficient amount of knowledge is gained so that it becomes a science.

The Domestic Science Department offers a good, practical course in food and cooking, sanitation and general house-keeping.

### DOMESTIC ART.

The instruction in this department includes Plain Sewing, Fancy Work, and Dressmaking. Practice work is given in all kinds of hand sewing, cutting, fitting and the use of the sewing machine.

The plain sewing course includes all work from Fourth Grade through Third Year Normal, and leads to a certificate.

The dressmaking course fits for the work of a regular dressmaker, and is a special course. It leads to a diploma. A fee of \$1.00 per month will be charged in this course.

### COURSE OF STUDY.

FOURTH AND FIFTH GRADES (Two periods per week, full year)

—Use of thimble, needle and scissors; basting, hemming, seams, over-

handing, over-casting, mending and darning, buttons and buttonholes, piecing quilts. Fancy work. (Outline work and cross-stitch.)

Sixth Grade (Five periods per week, full year)—Review of seams, buttons and buttonholes, mending and darning. Making of aprons, etc., by hand.

Fancy work. (Simple embroidery stitches.)

SEVENTH GRADE (Five periods per week, first semester) Making of fancy aprons, plain underwear, etc., by hand.

Fancy work. (Working initials, fancy bags, etc.)

EIGHTH GRADE (Two periods per week, second semester)—Use of sewing machine, making of underwear and plain garments.

Fancy work (Hemstitching and drawn work.)

FIRST NORMAL (Three periods per week, first semester)—Advanced work in garment making. Use of patterns, cutting and fitting of plain garments.

Fancy work. (Solid and eyelet embroidery.)

SECOND NORMAL (Three periods per week, second semester)—Practice work the same as First Normal.

Fancy work. (Crochet work.)

THIRD NORMAL (Five periods per week, first semester)—Fancy waists, woolen garments, making of models, etc.

Fancy work. (Advanced work in embroidery, Battenburg or lace making.)

The special Course will include the practice work of First, Second and Third Normal, and special instruction in sewing for others, taking measurements, fitting, etc.

# FLINT GOODRIDGE HOSPITAL.

## LOCATION.

The Flint-Goodridge Hospital stands at the corner of Canal and South Robertson Streets, the site of the old Flint Medical College, in the City of New Orleans. It fronts on the principal business street of the Metropolis of the South. Two street car lines pass directly in front of its door, thus putting it in direct communication with all the railway stations and ferry lines entering the City. It is within easy walking distance of the very heart of the business section, directly across the street from the Tulane Medical College, and only two blocks from the Charity Hospital. It has a wide street on two sides, a public alley in the rear and a spacious court on the remaining side. This makes possible an outside opening to every room, thus insuring an abundance of fresh air and sunshine. It is one of the most desirable hospitals anywhere to be found, not only for the sick and injured who may need its ministrations but also for physicians and surgeons in attendance.

## TRAINING SCHOOL.

Nurse training is one of the most important features of the work. The Nurse Training School has been completely reorganized and made to conform in all particulars with the requirements of the State Board of Nurse Examiners. The course of study covers a period of three years practical work in the hospital, during which time (nine months out of each year) the theoretical training is given by the several members of the faculty.

The school year is divided into three terms of three months each. Monthly reviews and written tests are given in each subject. The final examination for each term is prepared by the Superintendent. The theoretical work will be graded from these monthly tests and term examinations. An average of 75 per cent is required to pass any term's work. A minimum of 70 per cent will be accepted in any one subject, but if graded below this the student will be conditioned and can not be promoted if she has more than two such conditions.

## QUALIFICATIONS FOR ENTERING.

Applicants for this course must be at least eighteen years of age, must furnish satisfactory evidence as to character and ability, and must furnish credentials required by the Louisiana State Board of Nurse Examiners, which now is a certificate, properly signed showing the completion of at least the first year of a standard High School Course (ninth grade). This may be changed at any time without notice, and will be changed whenever the State Board raise their requirements.

The exactions made upon a nurse are such as to require much strength of body and good health, together with a patient, forbearing and gentle disposition and an unquestionable obedience. Any one not

possessed of these qualifications or who is looking for an easy time should not apply.

All applicants are admitted at first on a three months' probation. Those passing this period and having done satisfactory practical work will be admitted as student nurses.

Those who are eligible and desire to take the course should send their applications early to the office where they will be kept on file. Accepted applicants will be notified when to come.

The right is reserved by the Superintendent to terminate the course of any nurse at any time for good and sufficient cause.

### **TIME FOR ENTERING.**

Nurses may enter the Training School the first of January and June; none will be admitted at other times, unless it be to fill unexpected vacancies. We prefer that all beginners come in June. Application blanks will be furnished upon request.

### **FEEES AND OTHER EXPENSES.**

Each nurse will be required to deposit \$10.00 with the Superintendent on entering the Training School, as a guarantee of her intention to abide by the rules of the hospital and school and remain to complete the three years' course, same will be refunded if this is done, but forfeited if for any reason she should leave before finishing the course.

On passing her probation and at the end of her second year each nurse will be required to make a \$5.00 deposit on her uniform (3 dresses, 4 aprons, caps, collars) which will be refunded with the guarantee deposit on finishing the course.

Each nurse must purchase her own books for the course; these may be gotten from the office at cost; this amounts to, on an average, about \$10.00 per year. She will also be required to have her own watch, thermometer, scissors, and hypodermic outfit, and will be required to have rubber heels on shoes to be worn while on duty.

### **GENERAL REMARKS.**

Four qualifications are necessary for the young woman who anticipates entering upon a course of Nurse Training.

1. She must have an intellect capable of thoroughly understanding the subjects presented in her course.

2. She must have a strong physique and robust health, for the work is arduous and the hours long.

3. She must have a cheerful, happy disposition, for good spirits are a tonic to the patient, and obedience is essential for the welfare of all.

4. She must be absolutely trustworthy and her character beyond reproach.

Another desirable requisite is a thorough understanding of domes-

tic duties. Correctly to sweep a floor, make a bed, or prepare a good meal is as necessary as to be able to take temperature, use a hypodermic syringe, or dress a wound. All are essential, and so our course embraces the most ordinary household duties as well as the highest points of nursing technique.
